

§ 989.105

(i) The meeting portion shall be one lot; and

(ii) The remainder shall be one or more lots as necessary to cause each lot to contain either (a) a single defect in excess of tolerance or (b) two or more of the same defects in excess of tolerance occurring together within each of the individual containers.

(5) *Entire quantity failing.* Where the entire quantity of raisins submitted for inspection fails to meet such standards, then, whether such quantity shall be one or more lots shall be determined in the same manner as for the failing remainder referred to in paragraph (a)(4) of this section.

(6) *Special condition.* Notwithstanding other provisions of this section, any quantity of raisins failing to meet such standards and which are not to be re-conditioned may be a single lot.

(b) *Packed raisins.* For the purpose of outgoing inspection of packed raisins, lot means: (1) For in-line inspection (i.e., where samples are drawn from a flow of raisins prior to packaging), the aggregate quantity of raisins of the same varietal type, subtype, or size (or in their mixed form), processed in any continuous production of one calendar day and packaged in one size and style of package but excluding those rejected by inspection; and (2) for floor inspection (i.e., where samples are drawn from containers of raisins), the aggregate quantity of such raisins in like containers but not necessarily processed in one continuous production or during one calendar day, identifiable and offered for inspection as a lot.

§ 989.105 Inspection point.

Inspection point means any plant or receiving station of a handler, or any other place where raisins are received by a handler, and which is so designated by the Committee. The inspection point(s) of the handler shall include any area(s) in which he receives grapes or raisins for dehydration unless he keeps his raisin dehydration business separate, physically and by records, from his business of handling raisins.

§ 989.106 Ship.

Ship means the physical movement of raisins other than to storage for the handler's account within the general locality of the packing plant.

§ 989.107 Inspection certificate.

Inspection certificate means any written certification, finding, or attestation as to the quality or condition of any lot or lots issued by an authorized member of the inspection service.

§ 989.110 Varietal types.

Pursuant to § 989.10, specific definitions for each varietal type of raisins contained in that section are as follows:

(a) Natural (sun-dried) Seedless includes all sun-dried seedless raisins that possess characteristics similar to Natural Thompson Seedless raisins which, for the purpose of expediting drying, have not been dipped in or sprayed with water, with or without soda, oil or other chemicals prior to or during the drying process.

(b) Dipped Seedless includes all raisins produced by artificial dehydration of seedless grapes that possess the characteristics similar to Thompson Seedless grapes which, in order to expedite drying, have been dipped in or sprayed with water only after such grapes have been removed from the vine.

(c) Oleate and Related Seedless includes all raisins produced by sun-drying or artificial dehydration of seedless grapes which, in order to expedite drying, are dipped in or sprayed with water with soda, oil, Ethyl Oleate, Methyl Oleate or any other chemicals either while such grapes are on the vine or after they have been removed from the vine.

(d) Golden Seedless includes all seedless raisins whose color generally varies from golden yellow to dark amber.

(e) Muscats (including other raisins with seeds) include all raisins which usually contain seeds and possess characteristics similar to Muscat raisins.

(f) Sultana includes all raisins which usually contain an undeveloped (vestigial) seed and possess characteristics similar to Sultana raisins.

(g) Zante Currant includes all raisins that possess characteristics similar to
